50X1-HUM

-2--

6. S.S.YAKUTIA

Random clearing up continues on board. Final decisions as to her future have not as yet been made.

7. Yacht-WithELM PIECK

- a. This vessel, formerly referred to as the sailing vessel "SCHIFF der JUGEND", was launched and named on 23 May 1951, over three weeks behind schedule.
- b. The vessel is equipped with an auxiliary diesel motor and the switchboard was taken to the vessel through the yards during the launching ceremony.

8. S.S. JOSE DIAS

This Russian freighter put out to sea for an unknown destination on 25 May 1951. She had received minor overhauls on her engines and also deck repairs.

9. Naval motor vessels

- a. The vessels are still operating in SOX1-HUM Warnemunde. They are normally tied up at night alongside the former sea plane base on Markgrafenheide.
- b. The vessels are manned by naval ratings, with 'Baltic Fleet' insignia, who are housed in the barracks on Markgrafenheide. The vessels continue to make daily patrols towards Rostock and through the Breitling Sec.

10. S.S. SOVETSKAYA GAVAN

This vessel returned on 26 May. By 28 May eight of the smoke- 50X1-HUM producing (sic) installations had been refitted to the ship. She is expected to leave Warnemunde in the middle of June to make room for the return of the SOVETSKY SOYUZ.

11. See-Polizei

As yet no See-Polizei formation has been located in Warnemunde.
